Dear Parents,

HACKTO-NIGHT is an overnight hackathon organized by the FOSS Community of NSBM to be held on the 14th and 15th of October 2022. This hackathon is only open for NSBM undergraduates, and we expect the participation of around 100 competitors.

The team spirit, technological knowledge, problem-solving skills, and coding skills of the participants will be put to the test during this hackathon. We hope to increase the contribution of NSBM undergraduates towards open source through this hackathon as well.

NSBM lecturers will be present at the FOC premises throughout the duration of the hackathon. 3rd and final year senior undergraduates will also be present to assist the competitors. Kindly note that food and refreshments will be provided.
